

Public Notice
Manasquan Hydrant Flushing
Monday, April 15, 2024
Until
Friday, April 26, 2024
7:00 a.m. – 4:00 p.m.

Please be advised not to do laundry during these hours.

The Manasquan Water Department will be conducting its bi-annual hydrant flushing. Hydrant flushing helps to maintain a high level of water quality throughout the distribution system and ensure the proper operation of all our fire hydrants. Please be advised that some discolored water may be experienced. To eliminate this harmless discoloration, turn on cold faucets and leave open until the water runs clear. Thank you for your patience during this time.

Residents with questions or concerns, please contact Water Treatment Plant Supervisor, Ryan Travers at rtravers@manasquan-nj.gov or call (732)223-0544 ext. 550. Thank you.
